SUMMARY

Full Stack Developer with hands-on experience in building web applications using HTML, CSS, JavaScript, React.js, and Java Spring Boot. Skilled in designing and consuming secure RESTful APIs, implementing JWT-based authentication, and working with SQL/NoSQL databases. Proficient in Git version control and developing scalable, role-based web applications. Smart India Hackathon 2023 Grand Finalist with a strong foundation in software engineering and a proven ability to deliver end-to-end web solutions.

SKILLS

- **Languages:** Java, SQL
- **Backend:** Spring Boot, Spring Security, REST API, Spring Data JPA(Hibernate)
- **Frontend:** HTML, CSS, JavaScript, React.js, Thymeleaf, Bootstrap
- **Database:** MySQL(SQL), MongoDB(NoSQL - Basics)
- **Tools & Platforms:** Git, GitHub, Docker, Postman, IntelliJ IDEA, Spring Tool Suite, VS Code
- **Concepts:** OOP, MVC Architecture, JWT Authentication & Authorization, RESTful API Design, Database Design, Responsive UI Development

PROJECTS

- **HireHub – Job Portal System** ([GitHub](#))
Tech Stack: *Java, Spring Boot, Spring Security (JWT), Spring Data JPA, REST API, MySQL, ReactJS*
 - Developed a secure, role-based job portal supporting Job Seekers, Employers, and Admin modules.
 - Integrated **JWT-based authentication and authorization** to ensure secure access control.
 - Built 10+ REST APIs for job postings, applications, resume upload/download, and profile management.
 - Designed scalable backend architecture using Spring Boot and JPA for efficient data handling.
 - Performed API testing using Postman and implemented exception handling to ensure error-free performance.
 - Followed Software Development Life Cycle (SDLC) practices, including requirement analysis, development, testing, and debugging.
- **ElectroMart - E-commerce Web Application** ([GitHub](#))
Tech Stack: *Java, Spring Boot, Spring Security, Spring Data JPA, MySQL, HTML, CSS, JavaScript, Bootstrap, Thymeleaf*
 - Created a full-stack e-commerce platform with secure authentication and role-based access for users and administrators.
 - Built an Admin Dashboard to manage 20+ products, categories, users, and orders with CRUD functionality.
 - Optimized database queries to improve application performance.
 - Structured intuitive workflows for product listing, cart, and checkout for an enhanced user experience.
 - Implemented backend validation and debugging techniques to ensure system reliability.
- **QuizyNest - Online Quiz Web Application** ([GitHub](#))
Tech Stack: *Java, Spring Boot, Spring Security, Spring Data JPA, MySQL, HTML, CSS, JavaScript, Bootstrap, Thymeleaf*
 - Developed an interactive quiz platform with user authentication and category-based quiz attempts.
 - Designed Admin Module for managing questions, categories, and user results.
 - Enabled quiz timer, retake functionality, and activity logging for enhanced user experience.
 - Ensured smooth API performance through testing and debugging practices.

EDUCATION

Bachelor of Technology in Computer Science Engineering (AI & ML) - **CGPA - 7.24** (2022 - 2025)
Trident Academy of Technology, Bhubaneswar, Odisha

Diploma in Information Technology - **72.96%** (2020 - 2022)
Government Polytechnic, Bhubaneswar, Odisha

ACHIEVEMENTS

- **Finalist-Smart India Hackathon 2023:** Participated in the Grand Finale, collaborated within a team of five to develop a real-time data visualization dashboard using JavaScript during a 36-hour hackathon
- **College-Level Hackathons:** Competed in 3 inter-departmental and intra-college hackathons, showcasing problem-solving and teamwork skills.

CERTIFICATION

- **Java Full Stack Development:** Code for Success ([certificate](#))
- **Core Java:** Internshala ([certificate](#))
- **Programming in Java:** NPTEL-Scored 64% ([certificate](#))
